2. In that this move actually represents a permanent change of station, it is reiterated that this extension should be in terms of a minimum of thirty-six months duration. This matter has been discussed verbally with Colonel Geary, AFIC-5 and he has indicated that he foresees no problem in accomplishing this end.

3. [REDACTED] possesses those qualifications which are not only desirable but required to fulfill the aforementioned position under [REDACTED]. Time and money saved in clearance, etc., add to the desirability of the requested action. Expedient handling is required in that [REDACTED] has been informed by HSP that he is being considered for a service school on which quotas are to be issued in the very near future. He voluntarily requests release from previous commitments in this respect should this assignment be approved. In order for him to program his time he requires thirty days notice to his landlord prior to vacating his home and this would allow him approximately twenty-five days to complete the move to the new station and permit entering his children in school prior to commencement this fall.
